

NOTES TO THE USER

Please be noted that no tip is included in this HAKKO 950 package.
The tips are optional parts.
See the page 13 of the instruction manual for tip selection.

Before installing the tips, please loose the nipples by turning them counterclockwise and remove the metal pipes which are to protect the heating elements from damage during transportation. Then, insert the tips referring to the page 5 " Replacing the Tip/Tip selection" of the instruction manual.
