

SMT Stencil Wipe Economy Grade Large

This is a good quality stencil wipe that offers excellent cleaning at an economical price. It is a large wipe, about 8 inches (20 centimetres) by 11 inches (28 centimetres), so it delivers lots of scrubbing. It is made from hydroentangled polyester and cellulose, without any glues or binders for better cleaning. The material is lighter than other choices, so it's a better choice for less heavily contaminated surfaces.

Technical Details

Absorbency	313 mL/m ²
Basis Weight	1.9 Oz.
Color	White
Edges	Cut, but not sealed
Material	Polyester and Cellulose, hydroentangled; no glues
Packaging Note	100 Sheets/Bag, 6 Bags/Case
