RE: Fume Extraction Filter Changes for the Arm-Evac 105, Arm-Evac 200 and Arm-Evac 250

We have recently made major improvements and design changes to our Combo Filters and Pre-Filters for the Arm-Evac 105/200/250 series of Fume Extraction Systems. As a result, some key Filter part numbers will be discontinued and replaced by new Filters whose specifications are identical to the originals. Significant improvements include:

- Combo Filters are manufactured from non-plastic, eco-friendly materials that can be safely disposed of (or recycled), without processing.
- Filters are produced using an *extremely sturdy* corrugated cardboard casing that is much more durable and less prone to air leakage than its predecessor.
- We now include 1 Pre-Filter with every Combo Filter ... previously, customers had to buy the Pre-Filter separately, as an add-on.

Summary of Fume Extraction Filter Changes

Description	Old Filter (P/N)	Replaced By (P/N)
Pre-Filter (Old Design)*	8883-0111-P5	N/A
Pre-Filter (New Design)**	N/A	8883-0112-P5
General Purpose Combo Filter	8883-0931-P1	8883-0932-P1
Cleanroom Combo Filter	8883-0921-P1	8883-0922-P1
Adhesive Combo Filter	8883-0951-P1	8883-0952-P1
Arm 105 General Purpose Filter	8883-0901-P1	8883-0932-P1

* Old design Pre-Filter P/N 8883-0111-P5 is NOT compatible with newer style Combo Filters and will be available indefinitely for discontinued Filter P/N's: 8883-0901-P1, 8883-0921-P1, 8883-0931-P1, 8883-0951-P1

** Newer Style Pre-Filter P/N 8883-0112-P5 is NOT compatible with older Combo Filters and only fits Combo Filter P/N's: 8883-0922-P1, 8883-0932-P1, 8883-0952-P1
